SF Legal Certifies Safe Harbor Compliance to Ensure Secure Transfer of Client Data between U.S. and E.U.

San Francisco, Calif. – [SF Legal](#), a leading e-Discovery solutions provider for corporations, government agencies and law firms, has certified its compliance with the [United States Department of Commerce and European Union Safe Harbor Framework](#) to ensure the secure transfer of client data between the U.S. and the European Union. The Safe Harbor Framework was developed to reconcile the discrepant approaches to privacy between the U.S. and the E.U. and facilitate transatlantic transfer of data.

“The secure transfer of data is a major concern for our clients doing business in Europe,” said SF Legal CEO Christian Lawrence. “While we have always ensured the privacy of information we transmit, Safe Harbor Certification proves that we are using a compliant approach.”

To be certified as Safe Harbor-compliant, SF Legal was required to audit its privacy practices and publicly declare that these practices are consistent with the European Union privacy principles and U.S. Safe Harbor Framework. More information about the U.S.-European Union Safe Harbor program is available at: <http://export.gov/safeharbor/index.asp>.

About SF Legal

Founded in 1998, SF Legal is one of the leading and fastest-growing providers of electronic discovery solutions to both law firms and corporations nationwide. With a highly consultative approach and a suite of cutting-edge technologies, the company enables its clients to achieve significant cost and process efficiencies, compared with competing alternatives. SF Legal provides an end-to-end suite of electronic discovery services – from data preservation and collection, through analysis and review, to production and trial. More information is available by calling **415-392-2900** or at www.sanfranciscolegal.com.
